NORMAL COURSE.

Preparatory Year.

Same as in the Junior Preparatory Year of the two degree courses.

Robinson's Mathematical Series, Harkness' and Chase and Stuart's Latin Series, Hutchison's Physiology, Warren's Physical Geography, Youman's New Chemistry, and Dana's Geology, in addition to those specified in the courses, are authorized text books of the College.

GENERAL INFORMATION.

Design and Character of the College.

It is the aim of this institution to furnish young men and women with a thorough mental and moral training. Instruction will be conducted on Christian principles, and it will be the aim of the instructors to have it pervaded with a strong and healthy religious influence. Education will be directed with special reference to health, self-control, Christian character, and usefulness in life.

Two liberal courses of study--the Classical and the Scientific--have been arranged, each extending over four years. The Normal Course is designed, not only for those who intend to teach, but also for those whose time and means do not allow them to get a liberal education.

The courses of study are open to students of both sexes. Ladies reside with the lady teachers in a separate building; but students of both sexes are instructed in the same classes, enjoy the same privileges, and may take the same degrees.

Lectures.

Lectures will be given on Physiology, Chemistry, Mental and Moral Science, Logic, and History. There will also be one lecture a week, throughout the year, on subjects of practical information to students.

Examinations, Degrees, and Certificates.

At the close of each term, each class in the College Department is subjected to a thorough examination upon the studies of the term. In the Preparatory Department, monthly examinations are held. The degree of Bachelor of Arts is conferred on those who have completed the Classical Course, and the degree

of Bachelor of Science upon those who have completed the Scientific. Graduates of the Classical Course, of three years standing, and of the Scientific Course of four years standing, who have been engaged in any literary or professional pursuit, and have sustained a good moral character, may, on application, receive the degree of Master of Arts. The College confers no honorary degrees. Students who complete the Normal Course receive a certificate, but no diploma or degree. They take no part in the exercises of Commencement Day, but their names are publicly announced by the President on that occasion.

Library, Cabinet, and Apparatus.

The College Library contains over twenty-nine hundred volumes, and is constantly increasing. The Cabinet is furnished with a valuable collection of Minerals, which has now been permanently located and arranged. The Chemical Department is provided with Laboratory and Lecture Room, and there is considerable apparatus for the illustration of the other Physical Sciences.

Literary Societies.

The three Literary Societies—the Ecolian, Hermean, and Lincolnian—afford their members abundant means of voluntary improvement. These societies have each a well furnished hall.

The James Fund,

FOR THE ENCOURAGEMENT OF ENGLISH COMPOSITION.

The interest of a fund of \$1000, given by Mrs. John W. James, of Boston, for this special purpose, will be annually appropriated, by the direction of the Faculty, to the four students in College Classes, who, during the year, have made most improvement in English Composition.

Regulations.

The regulations of the College are few and simple, and designed to cultivate manliness and self-respect, by placing the

student largely upon his honor and personal responsibility. Students attend public worship in some church regularly twice on the Sabbath. Punctual attendance on all prescribed exercises, and cheerful observance of the rules are required. Study hours must be spent in study. Students are expected to be exemplary in morals and manners. None but those who earnestly desire improvement are wanted here, and such as continue to be disorderly or idle cannot be allowed to remain. Students will be admitted at any time, but it is very important that they should enter promptly at the beginning of the term, and remain until the close of examinations. Excuses from recitations will not be given except for sickness or unusual causes. Unless it is strictly necessary, students will not be allowed to make visits home or elsewhere, if their absence would include the time of any recitation. Even when no recitation is lost, such visits are highly detrimental to a student's progress, and should be discouraged. Parents are requested to make their arrangements accordingly. No student is permitted to visit the room of a student of the other sex, except by special permission in case of severe sickness.

The College Registrar will send to parents or guardians a monthly report of the scholarship and deportment of each student in the Preparatory Department.

Expenses.

Tuition in any College Studies,	-	\$8.00 a Term.
Tuition in Preparatory Studies,	- -	7.00 "
Drawing,	- - - - -	3.00 "
Room Rent,	- - - - -	3.00 "
Incidentals,	- - - - -	2.00 "
Board in the Hall with the Teachers,		2.50 a week.

There are no extra charges. French and German are included in the above. Instruction in vocal music is free. Washing is done at very low rates. Students furnish their own fire and lights. *All Charges payable in advance.*

About two hundred students may have rooms and board in the College buildings. Several of the teachers reside there and board at the same table with the students. The middle building is exclusively for ladies. Board may be had in private families at reasonable rates.

Manual Labor.

Young ladies who wish, may assist in the domestic department, and thus pay in part for their board. None are required to render any domestic service, and none are allowed to work more than two hours a day, except in special cases. Those who expect such employment must apply for it before coming. Young men who need it, may generally find remunerative employment for an hour or two a day, but the College does not agree to furnish it. Those who are in earnest for an education, and have tact in helping themselves, need not be deterred for want of means. Those who are needy, if they are faithful in working with both head and hands, will here receive all possible encouragement, and may earn a considerable part of their support. But parents should consider that a good education is always worth more than it costs; and that money well expended in it is the wisest investment for their children. Dutiful students should never be required, except by necessity, to earn their own support, or any considerable part of it, while getting their education.

Outfit.

The rooms in the College Buildings are furnished with stove, bedstead, wash-stand, table and plain chairs. Other furniture—bed, bedding, lamp, curtains, etc.,—is supplied by the student. A carpet, even if it be but a small one, a table spread, and everything that contributes to the comfort and pleasantness of a room, should be brought, if possible, from home. The beneficial influence upon the student's manners, of surrounding him in his room with all that makes home cheerful and attractive, can hardly be over-estimated. Every student should be provided with table napkins, an umbrella, overshoes, and plenty of warm underclothing.

Location and Buildings.

Ripon is reached by the Chicago & Northwestern and Milwaukee & St Paul, and the Sheboygan & Fond du Lac Railways. It is one of the most attractive places in the State. The scenery is pleasant and the climate healthful. The grounds occupied by the institution are beautifully located, commanding extensive views of the surrounding country. The College has three large

stone buildings, three stories high. These afford ample room for the purposes of instruction; also for Chapel, Cabinet, Laboratory, Library, Literary Societies, Reading Room, Boarding Hall and residence for teachers and students. The buildings were thoroughly renovated and repaired one year ago, and very great improvements made, especially in the ladies' building.

Growth and Wants.

The progress of the College has been very encouraging. All the departments of instruction are now well organized and filled with permanent instructors. During the past year, besides the improvement of the buildings, valuable additions have been made to the Library and Cabinet. The Endowment Subscription has reached nearly \$40,000, of which about \$30,000 is paid in and well invested.

But it is evident that the work of the College, important and useful as it is already, is only fairly begun. Its usefulness and growth are now limited only by want of means adequate to its work. Hitherto, with severe economy and great sacrifice from its teachers, it has been sustained almost wholly on its receipts from tuition. Nothing contributed to it has been used in current expenses or in raising money, and it is not proposed to use any gift for these purposes. But the work which the College is now doing requires that its endowment fund should be raised to \$100,000. The Library should be largely increased immediately, and there is much need of more apparatus, and of additions to the Cabinet. The friends of the College, and of liberal education generally, are invited to contribute to these objects. Their donations will be used most advantageously in the present work of instruction, and in building up a strong and permanent institution for liberal culture.

MUSICAL DEPARTMENT.

The object of this department is to give thorough instruction in playing the Piano-forte, in Solo and Chorus Singing, and Harmony and Higher Musical Theory, including Counterpoint and the elements of Form and Composition. Its instructors

will also seek to develop in their pupils a sound and healthy musical taste.

The course of study is divided into two parts, Preparatory and Advanced.

Preparatory Course.

In this course the pupil will become familiar with the staff, clefs, notes, rests, dynamic signs, and all that belongs to musical notation: also with the different intervals, the major, minor and chromatic scales. They will be exercised thoroughly in transposition, and will become familiar with the chords of the major and minor scales, so as to be able to commence the study of Harmony in the Advanced Course with the connection of chords. They will also pursue the study of Form sufficiently to distinguish readily phrases, sections, and periods, and to analyze the common Song-forms.

In piano-playing they will acquire a good finger action, touch, and facility and ease of execution. They will also become familiar with the principles of fingering, as applied to all classes of passages. They will devote one lesson a week for three terms to the study of church music, using either piano or cabinet organ for this purpose. Those whose voices admit of training will be required to spend at least three full terms in the study of vocal culture.

The following studies belong to this course: Plaidy's Technical Studies; Brunner, Op. 23; Lemoine, Op. 37; Bertini, Op. 100; Huenten, Op. 80; Bertini, Op. 29 and 32; Czerny, Op. 636, Op. 718, Op. 817; Krause, Op. 2; Heller, Op. 47, and parts of Op. 45 and Op. 46. Compositions: Jacob Schmitt, 6 Sonatines, Op. 207; Clementi, Op. 36, 6 Sonatines; Kuhlau, Op. 55 and Op. 59, Sonatines; Schumann's Album, Op. 68; and such other selections as may be deemed best adapted to promote the musical progress of the pupil.

In vocal culture Mason's Solfeggios will be used, with Technical exercises and songs selected from the best authors.

The time occupied in this course will vary with the ability and diligence of pupils, and the time they are able to devote to daily study and practice. Those who complete this course

satisfactorily will be admitted to the Advanced Course, and will receive a testimonial stating their musical attainments in full.

Advanced Course.

This course will comprise two years of practical and theoretical instruction. The study of the Piano-forte will be continued through the entire course, and the study of vocal culture at least one year, except in cases where inability to sing renders such study impossible.

The theoretical study will be as follows: First year, Harmony and Part writing, Elements of Form, and Analysis. Second year, Harmony continued, Counterpoint, Analysis, Form and Composition.

Class Instruction.

The instruction in Piano-playing and in Vocal Culture will be given in classes of three, and the theoretical instruction in classes of six pupils each, the classes receiving three lessons per week. The class system has many advantages over private instruction; it has been thoroughly tested, and is used in all the Musical Conservatories of Europe and America.

Chorus Singing.

There are two singing classes, free to the pupils of all departments of the College. Those who are found competent to sing somewhat difficult music, will be presented for admission to the Mendelssohn Society, a choral society under the direction of the Professor of Music of the College, whose object is the study and performance of the best choral works of the best masters. Pupils are required to attend one or more of these singing classes unless excused.

Attendance, &c.

The terms will commence with the regular College terms. The pupils are expected to begin promptly with the term and continue to the end, attending punctually all the lessons, and making full use of all the hours assigned for practice. *The teacher*

cannot make up lessons lost through absence of the pupil, even when such absence was excused. Pupils must receive all the lessons in each term which the teachers stand prepared to give, or bear the loss themselves. Exceptions can only be made in cases of several weeks' illness, or other equally unavoidable contingencies, in which case lessons will be made up, or if that is for any reason impossible, a portion of the tuition will be refunded.

Tuition and Other Expenses.

All bills for tuition, piano rent, etc., are due in advance. No deduction is made for temporary absence, except in case of several weeks' illness.

Music can be obtained at 25 per cent. discount from retail prices. Pianos can be rented at from \$3.00 to \$4.00 per quarter, one hour a day.

Board may be had in the college at \$2.50 a week; or in private families at very reasonable rates.

The following are the rates of tuition:

Piano, or vocal culture, in classes, term of	14 weeks,	-	-	\$14.00
" " " " " "	13 "	-	-	13.00
" " " " " "	12 "	-	-	12.00

Theory, half the above rates. Private lessons \$1.00 per hour.

Applications for admission to the Musical Department, or for further information should be addressed to JOHN C. FILLMORE, Professor of Music.

Application for admission to the Ladies' Department should be made to Miss KATE A. BUSHNEL, Principal.

Other applications may be made to the Secretary of the Faculty, or to Pres. W. E. MERRIMAN.

NORMAL COURSE.

Preparatory Year.

Same as in the Junior Preparatory Year of the two degree courses.

Robinson's Mathematical Series, Harkness' and Chase and Stuart's Latin Series, Hutchison's Physiology, Warren's Physical Geography, Youman's New Chemistry, and Dana's Geology, in addition to those specified in the courses, are authorized text books of the College.

GENERAL INFORMATION.

Design and Character of the College.

It is the aim of this institution to furnish young men and women with a thorough mental and moral training. Instruction will be conducted on Christian principles, and it will be the aim of the instructors to have it pervaded with a strong and healthy religious influence. Education will be directed with special reference to health, self-control, Christian character, and usefulness in life.

Two liberal courses of study--the Classical and the Scientific--have been arranged, each extending over four years. The Normal Course is designed, not only for those who intend to teach, but also for those whose time and means do not allow them to get a liberal education.

The courses of study are open to students of both sexes. Ladies reside with the lady teachers in a separate building; but students of both sexes are instructed in the same classes, enjoy the same privileges, and may take the same degrees.

Lectures.

Lectures will be given on Physiology, Chemistry, Mental and Moral Science, Logic, and History. There will also be one lecture a week, throughout the year, on subjects of practical information to students.

Examinations, Degrees, and Certificates.

At the close of each term, each class in the College Department is subjected to a thorough examination upon the studies of the term. In the Preparatory Department, monthly examinations are held. The degree of Bachelor of Arts is conferred on those who have completed the Classical Course, and the degree

of Bachelor of Science upon those who have completed the Scientific. Graduates of the Classical Course, of three years standing, and of the Scientific Course of four years standing, who have been engaged in any literary or professional pursuit, and have sustained a good moral character, may, on application, receive the degree of Master of Arts. The College confers no honorary degrees. Students who complete the Normal Course receive a certificate, but no diploma or degree. They take no part in the exercises of Commencement Day, but their names are publicly announced by the President on that occasion.

Library, Cabinet, and Apparatus.

The College Library contains over twenty-nine hundred volumes, and is constantly increasing. The Cabinet is furnished with a valuable collection of Minerals, which has now been permanently located and arranged. The Chemical Department is provided with Laboratory and Lecture Room, and there is considerable apparatus for the illustration of the other Physical Sciences.

Literary Societies.

The three Literary Societies—the Ecolian, Hermean, and Lincolnian—afford their members abundant means of voluntary improvement. These societies have each a well furnished hall.

The James Fund,

FOR THE ENCOURAGEMENT OF ENGLISH COMPOSITION.

The interest of a fund of \$1000, given by Mrs. John W. James, of Boston, for this special purpose, will be annually appropriated, by the direction of the Faculty, to the four students in College Classes, who, during the year, have made most improvement in English Composition.

Regulations.

The regulations of the College are few and simple, and designed to cultivate manliness and self-respect, by placing the

student largely upon his honor and personal responsibility. Students attend public worship in some church regularly twice on the Sabbath. Punctual attendance on all prescribed exercises, and cheerful observance of the rules are required. Study hours must be spent in study. Students are expected to be exemplary in morals and manners. None but those who earnestly desire improvement are wanted here, and such as continue to be disorderly or idle cannot be allowed to remain. Students will be admitted at any time, but it is very important that they should enter promptly at the beginning of the term, and remain until the close of examinations. Excuses from recitations will not be given except for sickness or unusual causes. Unless it is strictly necessary, students will not be allowed to make visits home or elsewhere, if their absence would include the time of any recitation. Even when no recitation is lost, such visits are highly detrimental to a student's progress, and should be discouraged. Parents are requested to make their arrangements accordingly. No student is permitted to visit the room of a student of the other sex, except by special permission in case of severe sickness.

The College Registrar will send to parents or guardians a monthly report of the scholarship and deportment of each student in the Preparatory Department.

Expenses.

Tuition in any College Studies,	-	\$8.00 a Term.
Tuition in Preparatory Studies,	- -	7.00 "
Drawing,	- - - - -	3.00 "
Room Rent,	- - - - -	3.00 "
Incidentals,	- - - - -	2.00 "
Board in the Hall with the Teachers,		2.50 a week.

There are no extra charges. French and German are included in the above. Instruction in vocal music is free. Washing is done at very low rates. Students furnish their own fire and lights. *All Charges payable in advance.*

About two hundred students may have rooms and board in the College buildings. Several of the teachers reside there and board at the same table with the students. The middle building is exclusively for ladies. Board may be had in private families at reasonable rates,

Manual Labor.

Young ladies who wish, may assist in the domestic department, and thus pay in part for their board. None are required to render any domestic service, and none are allowed to work more than two hours a day, except in special cases. Those who expect such employment must apply for it before coming. Young men who need it, may generally find remunerative employment for an hour or two a day, but the College does not agree to furnish it. Those who are in earnest for an education, and have tact in helping themselves, need not be deterred for want of means. Those who are needy, if they are faithful in working with both head and hands, will here receive all possible encouragement, and may earn a considerable part of their support. But parents should consider that a good education is always worth more than it costs; and that money well expended in it is the wisest investment for their children. Dutiful students should never be required, except by necessity, to earn their own support, or any considerable part of it, while getting their education.

Outfit.

The rooms in the College Buildings are furnished with stove, bedstead, wash-stand, table and plain chairs. Other furniture—bed, bedding, lamp, curtains, etc.,—is supplied by the student. A carpet, even if it be but a small one, a table spread, and everything that contributes to the comfort and pleasantness of a room, should be brought, if possible, from home. The beneficial influence upon the student's manners, of surrounding him in his room with all that makes home cheerful and attractive, can hardly be over-estimated. Every student should be provided with table napkins, an umbrella, overshoes, and plenty of warm underclothing.

Location and Buildings.

Ripon is reached by the Chicago & Northwestern and Milwaukee & St Paul, and the Sheboygan & Fond du Lac Railways. It is one of the most attractive places in the State. The scenery is pleasant and the climate healthful. The grounds occupied by the institution are beautifully located, commanding extensive views of the surrounding country. The College has three large

stone buildings, three stories high. These afford ample room for the purposes of instruction; also for Chapel, Cabinet, Laboratory, Library, Literary Societies, Reading Room, Boarding Hall and residence for teachers and students. The buildings were thoroughly renovated and repaired one year ago, and very great improvements made, especially in the ladies' building.

Growth and Wants.

The progress of the College has been very encouraging. All the departments of instruction are now well organized and filled with permanent instructors. During the past year, besides the improvement of the buildings, valuable additions have been made to the Library and Cabinet. The Endowment Subscription has reached nearly \$40,000, of which about \$30,000 is paid in and well invested.

But it is evident that the work of the College, important and useful as it is already, is only fairly begun. Its usefulness and growth are now limited only by want of means adequate to its work. Hitherto, with severe economy and great sacrifice from its teachers, it has been sustained almost wholly on its receipts from tuition. Nothing contributed to it has been used in current expenses or in raising money, and it is not proposed to use any gift for these purposes. But the work which the College is now doing requires that its endowment fund should be raised to \$100,000. The Library should be largely increased immediately, and there is much need of more apparatus, and of additions to the Cabinet. The friends of the College, and of liberal education generally, are invited to contribute to these objects. Their donations will be used most advantageously in the present work of instruction, and in building up a strong and permanent institution for liberal culture.

MUSICAL DEPARTMENT.

The object of this department is to give thorough instruction in playing the Piano-forte, in Solo and Chorus Singing, and Harmony and Higher Musical Theory, including Counterpoint and the elements of Form and Composition. Its instructors

will also seek to develop in their pupils a sound and healthy musical taste.

The course of study is divided into two parts, Preparatory and Advanced.

Preparatory Course.

In this course the pupil will become familiar with the staff, clefs, notes, rests, dynamic signs, and all that belongs to musical notation; also with the different intervals, the major, minor and chromatic scales. They will be exercised thoroughly in transposition, and will become familiar with the chords of the major and minor scales, so as to be able to commence the study of Harmony in the Advanced Course with the connection of chords. They will also pursue the study of Form sufficiently to distinguish readily phrases, sections, and periods, and to analyze the common Song-forms.

In piano-playing they will acquire a good finger action, touch, and facility and ease of execution. They will also become familiar with the principles of fingering, as applied to all classes of passages. They will devote one lesson a week for three terms to the study of church music, using either piano or cabinet organ for this purpose. Those whose voices admit of training will be required to spend at least three full terms in the study of vocal culture.

The following studies belong to this course: Plaidy's Technical Studies; Brunner, Op. 23; Lemoine, Op. 37; Bertini, Op. 100; Huenten, Op. 80; Bertini, Op. 29 and 32; Czerny, Op. 636, Op. 718, Op. 817; Krause, Op. 2; Heller, Op. 47, and parts of Op. 45 and Op. 46. Compositions: Jacob Schmitt, 6 Sonatines, Op. 207; Clementi, Op. 36, 6 Sonatines; Kublau, Op. 55 and Op. 59, Sonatines; Schumann's Album, Op. 68; and such other selections as may be deemed best adapted to promote the musical progress of the pupil.

In vocal culture Mason's Solfeggios will be used, with Technical exercises and songs selected from the best authors.

The time occupied in this course will vary with the ability and diligence of pupils, and the time they are able to devote to daily study and practice. Those who complete this course

satisfactorily will be admitted to the Advanced Course, and will receive a testimonial stating their musical attainments in full.

Advanced Course.

This course will comprise two years of practical and theoretical instruction. The study of the Piano-forte will be continued through the entire course, and the study of vocal culture at least one year, except in cases where inability to sing renders such study impossible.

The theoretical study will be as follows: First year, Harmony and Part writing, Elements of Form, and Analysis. Second year, Harmony continued, Counterpoint, Analysis, Form and Composition.

Class Instruction.

The instruction in Piano-playing and in Vocal Culture will be given in classes of three, and the theoretical instruction in classes of six pupils each, the classes receiving three lessons per week. The class system has many advantages over private instruction; it has been thoroughly tested, and is used in all the Musical Conservatories of Europe and America.

Chorus Singing.

There are two singing classes, free to the pupils of all departments of the College. Those who are found competent to sing somewhat difficult music, will be presented for admission to the Mendelssohn Society, a choral society under the direction of the Professor of Music of the College, whose object is the study and performance of the best choral works of the best masters. Pupils are required to attend one or more of these singing classes unless excused.

Attendance, &c.

The terms will commence with the regular College terms. The pupils are expected to begin promptly with the term and continue to the end, attending punctually all the lessons, and making full use of all the hours assigned for practice. *The teacher*

cannot make up lessons lost through absence of the pupil, even when such absence was excused. Pupils must receive all the lessons in each term which the teachers stand prepared to give, or bear the loss themselves. Exceptions can only be made in cases of several weeks' illness, or other equally unavoidable contingencies, in which case lessons will be made up, or if that is for any reason impossible, a portion of the tuition will be refunded.

Tuition and Other Expenses.

All bills for tuition, piano rent, etc., are due in advance. No deduction is made for temporary absence, except in case of several weeks' illness.

Music can be obtained at 25 per cent. discount from retail prices. Pianos can be rented at from \$3.00 to \$4.00 per quarter, one hour a day.

Board may be had in the college at \$2.50 a week; or in private families at very reasonable rates.

The following are the rates of tuition:

Piano, or vocal culture, in classes, term of	14 weeks,	-	-	\$14.00
" " " " "	13 "	-	-	13.00
" " " " "	12 "	-	-	12.00

Theory, half the above rates. Private lessons \$1.00 per hour.

Applications for admission to the Musical Department, or for further information should be addressed to JOHN C. FILLMORE, Professor of Music.

Application for admission to the Ladies' Department should be made to Miss KATE A. BUSHNELI, Principal.

Other applications may be made to the Secretary of the Faculty, or to Pres. W. E. MERRIMAN.
